Life Programme of the European Union

PREMESSA

Gli impatti delle alte temperature sull'economia, sull'ambiente e sulla salute delle persone in Europa, in particolare quella meridionale, sono destinati nei prossimi anni ad aumentare (JRC Peseta, 2020) con catastrofici effetti soprattutto sulla popolazione urbana se non verranno messe in atto efficaci misure di adattamento.

L'obiettivo "chiave" del progetto LIFE + A_GreeNet è adattare la Città del Medio Adriatico (340936 abitanti), comprendente i comuni costieri di Ancona e San Benedetto del Tronto (Regione Marche), dell'Associazione Temporanea di Scopo (ATSTE) "Città della Costa"- Comuni di Martinsicuro, Alba Adriatica, Tortoreto, Giulianova, Roseto, Pineto e Silvi - e di Pescara (Regione Abruzzo), all'innalzamento delle temperature e alle ondate di calore.

Queste misure di adattamento in ambito urbano vengono individuate nelle infrastrutture verdi, ed in alcune strategie e raccomandazioni proposte della UE con l'obiettivo di sviluppare una governance multi-livello e multi-attore, in grado di rafforzare la capacità amministrativa nei confronti dell'adattamento climatico di tutti i livelli coinvolti nella pianificazione e gestione del territorio (Regione, Province, Comuni), dei soggetti pubblici, ma anche privati, chiamati a collaborare nella gestione e progettazione del verde e ad accrescere le loro responsabilità e consapevolezza nei confronti delle misure di adattamento. Il progetto vuole migliorare anche la consapevolezza pubblica sul valore del verde urbano e tra i responsabili politici, i gestori, i professionisti e il pubblico in generale promuovendo il loro impegno attivo nella governance territoriale.

Con questo obiettivo, in fase di progettazione, nella descrizione dell'azione A.4 si affermava che la buona riuscita del progetto e la condivisione dei progressi a una scala maggiore possibile richiede di individuare le parti interessate da mobilitare nelle varie fasi progettuali. Per fare ciò, è necessario averne un quadro dettagliato per poter pensare ad una strategia di comunicazione e di progettazione partecipata da adottare per ciascuna di esse. La considerazione che sta alla base dell'azione è che per influenzare positivamente le persone e le categorie dei portatori di interesse occorre prima conoscerle.

INTRODUZIONE

L'Azione A.4 è finalizzata alla stesura di una lista di portatori di interesse locale da parte di ciascun partner di progetto, con stretto riferimento all'area territoriale di competenza di ciascuno.

Gli stakeholders di A_GreeNet individuati, dovranno essere tutti i portatori di interesse che interagiscono sui territori della città adriatica (comuni coinvolti e zone limitrofe), ai vari livelli proposti e ciascuno per le proprie competenze. Per questo è essenziale rilevare quali sono quelli condizionanti in modo significativo l'attività di progetto nel breve e nel lungo periodo. Con questa azione si vogliono individuare gli stakeholders per evidenziare esigenze ed aspettative comuni e che, il loro ruolo è fondamentale per il buon esito del progetto. Sarà redatta una mappa dei portatori locali di interesse e coinvolti nelle attività di progetto. La mappa degli stakeholders consente di sapere in modo dettagliato quali sono gli interlocutori prioritari con i quali approfondire percorsi di engagement, collaborazione, progettualità. Le conseguenti attività di coinvolgimento saranno più efficaci, perchè rivolte a soggetti che sono importanti da coinvolgere. La mappa, ha una funzione conoscitiva in quanto realtà urbane e territoriali complesse come quella adriatica richiedono consapevolezza crescente e capacità strategiche di saper anticipare i cambiamenti anche nelle relazioni apparentemente non rilevanti.

La mappa è stata elaborata da ciascun partner e coordinata dal responsabile di azione (COMSBT) attraverso la definizione di una serie di attività per individuare i gruppi di portatori di interesse più rilevanti per una organizzazione e rispetto ad uno o più temi di interesse specifico.

Questo processo, che prende il nome di Analisi degli Stakeholders, ha l'obiettivo di rilevare in modo strutturato ed efficace con metodologie condivise a livello internazionale, quali sono gli interlocutori da coinvolgere nel progetto per ottimizzare le attività proposte. E' un percorso di analisi multi-criteria e multi-fattoriale svolto in modo collaborativo con diverse tecniche di coinvolgimento, mediazione e facilitazione, il cui risultato sarà una matrice di valori contenente informazioni quantitative e qualitative, derivanti da un'analisi del valore ponderale attribuito a ciascun gruppo di portatori di interesse.

I soggetti individuati, dopo una fase di riordino e razionalizzazione saranno coinvolti nello svolgimento dell'azione C1 (sott. C1.1 e C.1.2).

The Life+A_GreeNet has received funding from the Life Programme of the European Union

Note metodologiche:

DA.4.1 Stakeholders map

La mappa degli stakeholder è stata redatta inquadrando diverse categorie relative a: (I) il livello territoriale di riferimento degli stakeholder (nazionale, regionale, locale, società civile, gruppi chiave); (ii) il loro grado di impegno (effettivo o potenziale); (iii) la loro area prioritaria di interesse.

Le fasi di lavoro hanno previsto:

1 – INDIVIDUAZIONE di quali sono gli Stakeholder: si è stilato un elenco delle parti coinvolte. Questo elenco potrà essere in seguito aggiornato qualora dovessero emergere nuovi soggetti;

2 - COMPrensione delle esigenze: per gli stakeholder per i quali la risposta non è immediata occorrerà un confronto diretto al fine di non dare per scontate molte questioni che invece scontate non sono. Sarà necessario svolgere una attenta analisi dei requisiti;

3 – COMPrensione del grado di coinvolgimento nel progetto: questa domanda è importante perché dobbiamo renderci conto delle implicazioni tecniche, economiche ed emotive che le azioni di progetto possono scatenare. Il peso "politico" di uno stakeholder unito con l'importanza che il progetto può avere per lui determina la necessità di prestare particolare attenzione al tipo di comunicazione che si vuole instaurare;

4 – COMPrensione del "know-how": non è detto che alcune questioni siano scontate e quindi è necessario dedicare del tempo a chiarire i dettagli di ciò che ci appresta a fare. Questo è un passaggio importante per risultare convincenti e per "smontare" i potenziali pre-giudizi degli interlocutori;

5 - COMPrensione delle loro difficoltà: sarà necessario porsi interrogativi durante le fasi di coinvolgimento al fine di mettersi nella condizione di valutare le implicazioni per ciascuno stakeholder di eventuali insuccessi o di far emergere le resistenze al cambiamento dato che il progetto vuole andare anche a modificare il modo di lavorare di alcune categorie;

6 – COMPrensione del potere di impatto sul progetto da parte di ciascuno Stakeholder: dato che è più difficile influenzare uno stakeholder dotato di un elevato potere e ruolo organizzativo, sarà necessario avere una precisa strategia di comunicazione con obiettivi e modalità di coinvolgimento attentamente analizzati;

7 - COMPrensione delle priorità di ciascuna categoria: perché consente di attuare una strategia mirata a lavorare su ciò che è considerato come realmente importante ed evitare di disperdersi in questioni che gli interlocutori considerano di poco conto. Viceversa, può darci indicazioni su quegli aspetti del progetto che dobbiamo precisare meglio perché ritenuti marginali.

Life Programme of the European Union

RISULTATI

Life+A_GreeNet mira ad adattare la Città del Medio Adriatico ai fenomeni legati all'innalzamento delle temperature e alle ondate di calore.

Come risultato, i partner del progetto hanno mappato i soggetti interessati che potranno contribuire alla conservazione e alla gestione delle zone verdi di interesse urbano, con il loro coinvolgimento attraverso processi partecipativi.

Una volta coinvolti, gli enti pubblici e privati potranno confrontarsi e discutere sui processi contrattuali delle zone forestali con l'obiettivo di sviluppare una strategia di sviluppo futuro. I partner di progetto si impegneranno ad includerli e coinvolgerli anche nelle loro attività ordinarie, per il raggiungimento di un obiettivo di valorizzazione urbano comune.

Inoltre, il networking con gli stakeholder locali favorirà le relazioni con i territori locali e la condivisione e promozione del progetto e dei risultati ottenuti.

L'identificazione degli stakeholder nell'area del progetto è guidata dal Partner responsabile dell'azione (COMSBT) ed è facilitata dalla sua precedente esperienza all'interno del progetto INTERREG ITA-HRO denominato CREW, sviluppato tra il 2019 e il 2021.

La metodologia proposta nei progetti Interreg e riportata in questa esperienza, si rifà all'uso del manuale IT-HR Interreg (Factsheet nr 8 - Comunicazione) riguardante i gruppi target. Nel caso di progetto, gli stakeholder giocheranno un ruolo cruciale nello sviluppo dei processi del contratto di Forestazione (ACTION C.1: Coesione territoriale), nella misura in cui saranno chiamati a partecipare direttamente alla definizione della strategia per la gestione, la nuova creazione e la protezione delle aree verdi urbane.

Nonostante il coinvolgimento di stakeholder interessanti sia da considerarsi ancora in corso e, il progetto ha raggiunto un numero di oltre 180 entità attraverso diversi tipi di contatti da parte di ciascun partner di progetto, che ha compilato alcuni modelli per raccogliere e valutare le caratteristiche degli stakeholder e quindi classificarli in tre categorie (Gruppo I: Amministrazioni pubbliche, Autorità ed enti pubblici regionali e locali; Gruppo II: Agenzie Ambientali, Istituti di Ricerca, ONG, Associazioni pubbliche, gruppo chiave e Gruppo III: stakeholder privati) in base al loro livello territoriale di riferimento (internazionale, nazionale, regionale e locale); area prioritaria di attività; interesse, contributo e grado di influenza verso i contratti di Forestazione e relative esperienze simili passate.

LIFE20 CCA/IT/001752 – Life + A_GreeNet
The Life+A_GreeNet has received funding from the Life Programme of the European Union

I risultati dell'analisi dei contatti con gli stakeholder interessanti mostrano che la categoria principale è quella delle Agenzie ambientali, istituti di ricerca, ONG, associazioni pubbliche e di categoria (n°85) che rappresentano il 47% del numero totale di stakeholder individuati (Figura 1).

Figura 1: Tipologia di portatore di interesse individuato dai partners di progetto

Gli Enti pubblici individuati sono 75, pari al 41% del totale delle figure individuate e nello specifico, i Comuni che agiscono a livello locale sono 40 e rappresentano oltre il 50% (Figura 2).

Figura 2: Rapporto fra il totale degli enti pubblici selezionati e i Comuni

LIFE20 CCA/IT/001752 – Life + A_GreeNet

The Life+A_GreeNet has received funding from the Life Programme of the European Union

Di tutti gli enti pubblici individuati, quelli che agiscono a livello regionale sono 10, e il loro coinvolgimento attivo nel processo di governance appare importante dato che nella maggior parte dei casi le aree obiettivo sono totalmente incluse nei loro distretti amministrativi.

Il coinvolgimento di Enti locali sovraordinati e di quelli al di fuori dell'area di progetto, risulta necessaria per poter condividere l'esperienza maturata nel Life+ A_GreeNet e per garantire un processo decisionale condiviso e ripetibile su più ampia scala.

Dall'analisi delle schede compilate emerge che gli enti pubblici, direttamente o indirettamente coinvolti nell'area, sono quelli con il maggior interesse ad essere attivamente coinvolti nei processi del contratto di Forestazione.

Allo stesso tempo, gli enti privati, cioè le agenzie ambientali, le ONG, i centri di ricerca e le PMI, hanno un livello alto e medio di interesse ad essere consultati e informati all'interno di questi processi.

I principali campi di attività, considerando tutte le tipologie di stakeholder, sono legati a:

- Paesaggio
- Agricoltura
- Salute
- Pianificazione
- Energia
- Biodiversità
- Sviluppo locale
- Turismo e ricreazione
- Cultura

Inoltre, gli obiettivi statuari degli stakeholder individuati sono allineati con gli obiettivi del progetto LIFE+A_GreeNet e quindi la maggior parte degli stakeholder sono fortemente interessati alle attività proposte.

 Life Programme of the European Union

Tipologia di stakeholder e campo di attività

La tipologia degli stakeholder identificati dal partenariato per essere coinvolti nei processi di coesione territoriale è dominata dai Gruppi I e II, mentre il Gruppo III (Stakeholder privati) rappresenta quasi un ottavo del numero totale dei soggetti delle altre due categorie.

In particolare, all'interno del Gruppo II, le due categorie più frequenti sono quelle delle **Business Support Organizations (n°26 su 85)** e delle **Private no profit (i.e. NGO) (n° 24 su 85)**, e le loro attività sono coordinate con quelle di altri stakeholders (es. Paesaggio, Agricoltura, Salute, Pianificazione, Energia, Biodiversità, Sviluppo locale, Turismo e ricreazione, Cultura).

Le attività prevalenti sono quelle legate allo Sviluppo Locale, all'agricoltura, al paesaggio e alla biodiversità, con costanti riferimenti anche all'educazione (ambientale). Alcuni portatori di interesse sono stati individuati con riferimento al campo della pianificazione territoriale, del turismo e dell'energia.

Il tema della Salute appare molto importante nella scelta dei soggetti da coinvolgere.

Pertanto, le attività degli stakeholder sono allineate con gli obiettivi del progetto Life+A_GreeNet.

 Life Programme of the European Union

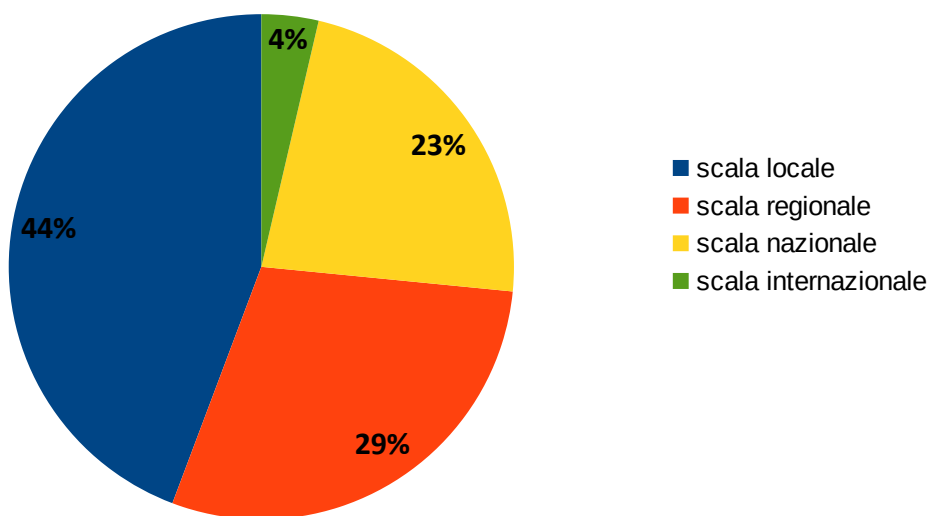

Portata territoriale delle attività degli stakeholder, obiettivi correlati e possibili conflitti e coincidenze con gli obiettivi del progetto nell'area di riferimento

Gli stakeholder identificati agiscono principalmente alla scala locale (Figura 3).

Questo è molto importante poiché, la gestione innovativa delle aree verdi urbane (esistenti e potenziali) può iniziare alla piccola scala e gli interessi locali possono essere fortemente influenzati dal modo in cui le aree sono gestite.

Pertanto, grazie a un approccio partecipativo che coinvolge diversi gruppi locali, è possibile identificare e aumentare la consapevolezza delle questioni intersettoriali della gestione urbana, della capacità istituzionale locale, dello scambio di conoscenze e del capacity building al fine di implementare il processo che porterà al contratto di forestazione al fine di incentivi e benefici a lungo termine per il coinvolgimento consapevole della popolazione locale.

Figura 3: Area di competenza dei portatori di interesse

Alcuni altri stakeholder che possono essere coinvolti nel processo agiscono a un livello territoriale più ampio (cioè nazionale e regionale), e sono molto importanti per garantire l'esportazione di buone pratiche anche fuori dalle aree di progetto strettamente coinvolte nel progetto Life+A_GreeNet.

The Life+A_GreeNet has received funding from the Life Programme of the European Union

Coinvolgimento presente e passato degli stakeholder nei processi di governance inclusiva e nei processi di contratto Wetland

Complessivamente, l'insieme degli stakeholder coinvolti mostra un'alta conoscenza dei processi di governance inclusiva (anche se qualcuno non esprime considerazioni) e si descrivono esperienze passate medio-alte sulle tematiche di Governance territoriale, in particolare per la categoria degli Enti pubblici e delle Organizzazioni .

Invece, per quanto riguarda i processi contrattuali specifici per la forestazione urbana, gli stakeholder hanno un basso livello di consapevolezza e competenza. Questa lacuna è giustificabile dal fatto che i Contratti di Forestazione sono strumenti estremamente innovativi.

In conclusione, una alta quantità di stakeholder coinvolti mostra potenziale interesse per i processi di governance territoriali delle aree all'interno del progetto. In particolare, essi considerano questo processo come un'opportunità per partecipare e quindi per condurre una gestione efficace degli spazi coinvolti, dal momento che le aree a verde urbano rappresentano un valore per l'intera comunità locale.

	<p>The Riserva Naturale Borsacchio was founded in 2005 to save one of the rare stretches of coast uncontaminated. Since then the reserve is cared for by a group of volunteers. It is an area of 1100 hectares divided between sea, ridges and gullies. Inside there are historic buildings such as the Fonte D'Accolle, the Pineta Mazzarosa, the ancient Devincenzi Station, dunes that are the home of protected species of flora and fauna such as the Fratino and the Giglio di Mare.</p>

Goals	<p>Please specify what are the main objectives of the organization for the Pilot Area</p> <div style="border: 1px solid black; padding: 5px;"> <p>The National Federation Pro Natura was at the beginning of its history, as MIPN, one of the founders (Fontainebleau, October 1948) of the UICN (International Union for Conservation of Nature). In addition to the UICN, he is a member of the BEE (Bureau Europeen de l'Environnement) and has been a member of the Assisi Nature Council, the Terra Mother International Permanent Committee and the Italian National Parks and Similar Reserves Committee. Recognized by the Ministry of the Environment with Ministerial Decree of 20 February 1987, she participated with her representatives in the regional and provincial councils for the application of the laws for the protection of fauna and hunting (a faculty which, following the battles of the seventies, was recognized first with the 1967 consolidated act on hunting, which sanctioned its role as representative of the environmentalist world), to the National Technical Hunting Committee, to the Sea Defense Council, to the National Council for the Environment.</p> </div>

RELATIONSHIP WITH THE DECISION MAKING PROCESS OF THE CONTRACT OF FORESTRY

Interest	<p>What aspects of the Pilot Area management are of <u>interest</u> for the organization</p> <p>Il territorio del Comune è compreso nella fascia costiera adriatica e di questa assume le problematiche e le criticità. Soprattutto, si rileva una scarsa e poco organizzata dotazione di aree destinate a verde pubblico, fruibili dai cittadini e dai turisti così come è necessario che l'Ente si doti di strumenti per la gestione del verde pubblico esistente e per la realizzazione della infrastruttura verde. Al momento, il Comune non possiede una strategia o strumenti capaci di guidare questo processo.</p>						
Contribution	<p>Which contribution the organization can add to the Pilot Area management process:</p> <p>Il contributo che il Comune può fornire al processo di progettazione e di realizzazione della infrastruttura verde della città adriatica è individuabile nella disponibilità del personale della propria struttura tecnica e decisionale, delle conoscenze che ha formato nel corso degli anni, delle relazioni e reti che ha costruito, della disponibilità di aree e strutture utili a realizzare l'infrastruttura verde, dei progetti e delle pianificazioni approvate.</p>						
Engagement	<p>In the Contract of Forestry <u>engagement</u> process the organization wants to:</p> <table border="1"> <tbody> <tr> <td><input type="checkbox"/></td> <td>be informed</td> </tr> <tr> <td><input type="checkbox"/></td> <td>be consulted</td> </tr> <tr> <td><input checked="" type="checkbox"/></td> <td>be actively involved</td> </tr> </tbody> </table>	<input type="checkbox"/>	be informed	<input type="checkbox"/>	be consulted	<input checked="" type="checkbox"/>	be actively involved

RELATIONSHIP WITH THE DECISION MAKING PROCESS OF THE CONTRACT OF FORESTRY

Interest	<p>What aspects of the Pilot Area management are of <u>interest</u> for the organization</p> <p>L'area pilota è di estremo interesse per la Provincia perchè riguarda un ambito densamente abitato, ampiamente compromesso nelle sue componenti ambientali e territoriali ma con straordinarie risorse e possibilità di crescita sostenibile che vanno sfruttate in maniera coordinata dai Comuni costieri. Si avverte la necessità di pianificare e realizzare l'infrastruttura verde adriatica quale risposta alla urbanizzazione densa dei litorali.</p>								
Contribution	<p>Which contribution the organization can add to the Pilot Area management process:</p> <p>La Provincia di Teramo contribuirà al progetto attraverso la disponibilità del personale della propria struttura tecnica e decisionale, delle conoscenze che ha formato nel corso degli anni, delle relazioni e reti che ha costruito. Inoltre, contribuirà attivamente all'inserimento dei processi di costruzione della rete verde nello strumento urbanistico del P.T.C.P. e negli strumenti urbanistici comunali oltre che alla redazione del Contratto di Forestazione.</p>								
Engagement	<p>In the Contract of Forestry <u>engagement</u> process the organization wants to:</p> <table border="1" data-bbox="491 1200 810 1458"> <tr><td><input type="checkbox"/></td><td>be informed</td></tr> <tr><td><input type="checkbox"/></td><td>be consulted</td></tr> <tr><td><input checked="" type="checkbox"/></td><td>be actively involved</td></tr> <tr><td><input type="checkbox"/></td><td></td></tr> </table>	<input type="checkbox"/>	be informed	<input type="checkbox"/>	be consulted	<input checked="" type="checkbox"/>	be actively involved	<input type="checkbox"/>	
<input type="checkbox"/>	be informed								
<input type="checkbox"/>	be consulted								
<input checked="" type="checkbox"/>	be actively involved								
<input type="checkbox"/>

	<p>“Le Guide del Borsacchio APS” ha il suo fine nella tutela e promozione della Riserva Borsacchio in forme sostenibili di economia e turismo. Nel 2018 si sono riunite in una associazione che racchiude qualifiche e conoscenze del territorio indispensabili per portare avanti progetti scientifici, di tutela ambientale, per preservare flora e fauna e promuovere il territorio. I volontari sono attivi in eventi per tutelare l’ambiente, per preservare specie protette, per la pulizia e manutenzione e per collaborazioni con scuole.</p>

RELATIONSHIP WITH THE DECISION MAKING PROCESS OF THE CONTRACT OF FORESTRY				
Interest	What aspects of the Pilot Area management are of <u>interest</u> for the organization	<p>O.P.C.I. è interessato ad avviare studi sulle condizioni di trasformazione dei territori costieri, e a diffondere i risultati delle ricerche dei propri partners. In merito all'Area Pilota O.P.C.I. è interessato a collaborare alla costruzione e alla divulgazione di progetti interdisciplinari mirati alla salvaguardia, al restauro e allo sviluppo dei paesaggi vista mare. Il tema della forestazione e della costruzione di reti ecologiche è riconosciuto come tema sistemico per l'accrescimento della resilienza.</p>		
Contribution	Which contribution the organization can add to the Pilot Area management process:	<p>O.P.C.I. si propone per la collaborazione alla organizzazione dei progetti locali e di quartiere, nonché per la comunicazione e la diffusione del progetto a scala nazionale: la maturata esperienza nella ricerca scientifica, nell'organizzazione di eventi culturali e di laboratori di progettazione partecipata, ci spinge a ipotizzare il nostro contributo per laboratori urbani, di informazione e di coinvolgimento della popolazione residente.</p> <p>O.P.C.I. è attivo sul portale www.paesaggicostieri.org e sui canali Twitter, Facebook e Instagram.</p> <p>Inoltre, O.P.C.I. ha recentemente costruito una rivista internazionale che si occupa di paesaggio costiero (semestrale cartaceo e digitale, vedi: www.seascape.it), media che potrebbe aiutare il processo di comunicazione e di restituzione (anche in itinere) dei risultati del progetto.</p>

REDI è un centro di ricerca, innovazione e formazione. La sua missione è di contribuire allo sviluppo di ricerche interdisciplinari per migliorare la preparazione e la risposta ai disastri da parte delle comunità, diminuendone il tempo di recupero e ripresa. L'approccio adottato è quello del *knowledge-for-action*, che implica un incessante impegno a mettere in atto il circolo virtuoso tra conoscenza e innovazione per poter agire efficacemente e senza ostacoli, in modo che l'avanzamento della scienza e il progresso tecnologico possano interagire positivamente per massimizzare i loro rispettivi impatti, anche a livello sociale. REDI è stato fondato da 4 istituti di ricerca italiani: INGV, INFN, GSSI e UNICAM.

La rigenerazione urbana e l'adattamento ai cambiamenti climatici della città costiera del medio adriatico rappresenta un topic di interesse e di sperimentazione da parte di REDI.

	<p>IRIB CNR svolge attività di ricerca, di valorizzazione e trasferimento tecnologico e di formazione nella macroarea delle scienze e tecnologie mediche, con estensione alle macro aree di biotecnologie e di scienze e tecnologie ambientali, relativamente ad obiettivi di ricerca che riguardano la biomedicina con implicazioni di natura multidisciplinare. Un suo recente campo di ricerca riguarda la promozione di misure di adattamento e mitigazione degli effetti delle ondate di calore in ambito urbano con evidenza di benefici per la salute e una maggiore vivibilità nel contesto urbano. Questo ambito di ricerca trova ampia convergenza con il progetto Life+A_GreeNET.</p>
